SUMMARY

DevOps Engineer with hands-on experience in AWS, Linux, Docker, Kubernetes, Jenkins, Terraform, Git and CI/CD through the GUVI DevOps Program. Experienced in deploying and containerizing applications on AWS, automating application delivery using Jenkins, provisioning cloud infrastructure using Terraform, and implementing application monitoring using Prometheus and Grafana. Brings additional professional experience in operations management, coordination, documentation, issue resolution and SLA-driven processes.

EDUCATION

Thiruvalluvar University

Bachelor of Computer Applications (BCA) | 84%

2019

EXPERIENCE

Operations Executive

March 2021 – Present

Infiniminds Pvt. Ltd.

- Manage service operations for healthcare projects, coordinating activities between field engineers, customers and internal teams.
- Process purchase orders, quotations, invoices and operational documentation with accuracy and timely follow-up.
- Coordinate with cross-functional teams to support issue resolution and ensure smooth service operations.
- Work with Oracle, Siebel CRM, ServiceMax, Apttus and Zoho CRM for operational and business-process activities.
- Prepare operational reports, track service activities and monitor SLA compliance.
- Support documentation, escalation management, issue tracking and day-to-day process improvements.

PROJECTS

Mind Track – Task Management Application | Technologies: AWS EC2, Docker, Jenkins, GitHub, Linux, Nginx

- Deployed a web-based task management application on an AWS EC2 instance and configured the Linux environment for application hosting.
- Containerized the application using Docker to provide a consistent and portable deployment environment.
- Designed and implemented a Jenkins-based CI/CD pipeline to automate application build and deployment activities.
- Integrated the source code repository with GitHub and used Jenkins to streamline application delivery.
- Configured Nginx as a web server/reverse proxy for application access and deployment.
- Performed application deployment validation and troubleshooting across the deployment workflow.

TrendStore – ReactJS E-Commerce Application | Technologies: ReactJS, Docker, Jenkins, AWS EC2, GitHub, Linux

- Built and deployed a ReactJS-based e-commerce application using a containerized deployment approach.
- Created Docker images for the application and managed container-based application execution.
- Pushed Docker images to Docker Hub as part of the application delivery workflow.
- Configured Jenkins automation to support repeatable application build and deployment activities.
- Hosted the application on AWS EC2 and configured the environment for production-style application access.
- Troubleshot container, deployment and application-access issues during the implementation process.

AWS EKS, Terraform & Monitoring | Technologies: AWS EKS, Kubernetes, Terraform, Prometheus, Grafana, Linux

- Provisioned AWS infrastructure using Terraform to implement repeatable Infrastructure as Code practices.
- Deployed containerized applications to Amazon EKS using Kubernetes.
- Worked with Kubernetes deployment concepts including application deployment and external application access.
- Configured Prometheus for infrastructure/application monitoring and connected Grafana for dashboard visualization.
- Implemented monitoring dashboards to observe system and application performance metrics.
- Worked with AWS services including EC2, ECR, EKS, IAM and VPC as part of cloud deployment exercises.

TECHNICAL SKILLS

Cloud: AWS (EC2, IAM, VPC, ECR, EKS, CodeBuild, CodePipeline)

Containerization & Orchestration: Docker, Kubernetes

IaC & Configuration Management: Terraform, Ansible

CI/CD: Jenkins

Version Control: Git, GitHub

Monitoring: Prometheus, Grafana

Operating System: Linux (Ubuntu)

Scripting: Bash

Web Server: Nginx

Enterprise Tools: Oracle, Siebel CRM, ServiceMax, Apttus, Zoho CRM

Other Tools: Advanced Excel, Microsoft Office

CERTIFICATIONS

GUVI DevOps Program — Jan 2026

Lean Six Sigma Foundation — Jun 2021

Microsoft Power BI Using AI Workshop — Jun 2024

ACHIEVEMENTS

- Spot Award – WOW Award
